

Carlton and Barlow Youth Club Report

In April and May, the youth club hosted Cookstars workshops focused on healthy eating. The children had an amazing time, and some parents have even shared that their children are now eating more vegetables!

We also have Forest School sessions booked over the coming months. These sessions are designed to boost confidence and self-esteem through hands-on learning experiences. The children will learn skills such as building shelters and using a variety of tools.

The youth club continues to thrive, with children attending from surrounding areas and a total of 60 children now registered.

Due to the success of Carlton Youth Club, we have expanded and now run monthly sessions in Barlow. Attendance at these sessions is steadily growing.

A huge thank you was extended to the Church for their generous donation to the youth club in January, this has gone toward the forest school sessions and arts and crafts supplies for the children.

Finally, a massive thank you to everyone who continues to support our youth club — it is truly appreciated.

Regards Abby Proctor
