

CARLTON NEIGHBOURHOOD DEVELOPMENT PLAN

NOTE OF VILLAGE WALKABOUT

9TH JUNE 2026

1. Introduction

At our Steering Group meeting on 5th May 2026, it was agreed, as part of the development of the Plan, to have a walk through the Heart of the village to identify potential areas of improvement to feed into the NDP.

The aim is to identify ways of providing Carlton, a fundamentally linear village, can develop a sense of “heart”, through well planned development.

2. Process

5 members of the Steering Group attended, alongside our retained consultant. With maps of the village heart and an assessment sheet, 3 teams of 2, walked both sides of the main street from Church to Church.

3. Conclusions

A full synthesis of the notes taken will be provided to the Steering Group. It was agreed that the area of search regarding the village heart should be defined as from the traffic lights north of the surgery down to the new crossing planned at the Co-op.

Furthermore, it was agreed that Cllr. Mike Jordan would raise the potential for NYC Highways to undertake an assessment of how the highway could be improved, with CPC endorsement.

David Gluck
Consultant to Carlton Parish Council
